Appointment calendar for DBA scheduling, if needed, in Educator

Course DBA Information:

A "Discussion Based Assessment (DBA)" is a time for the students to share something they learned in the module with the teacher. Students are required to talk with the teacher via phone/ZOOM to complete this assignment each module. Students may use notes but should not receive any additional support from another person (parent, guardian, tutor, sibling, friend, etc.).

DBAs can be completed:

- using the appointment calendar on the homepage of the class
- using the open DBA times listed on the homepage of the class (no appt needed)
- joining the live lesson for the module review and DBA (shown on the pace chart)
(If students use this option, the student is required to use microphone)

Course EOC Information (if applicable):

All full-time SJVS students will be required to come on campus to take the Florida End of Course Exam in May. **This exam is worth 30% of your final grade.** You will be able to use the TI30-XA calculator.

Delta Math Supplement

Our SJVS full-time students will be required to utilize Delta Math to supplement their learning and help students prepare for the EOC.

Flex students can also join our Delta Math class to practice if they would like, but this is not a requirement since your school may offer their own EOC preparation.

Please join our Delta Math class by going to www.deltamath.com/students, click "Register" and enter your class code **V77X-6JW4**
